## SCHOOL BOARD SEEKS EXTRA APPROPRIATION

Fears Failure to Pass District Bill Will  
Leave New Schools Without  
Funds for Maintenance.

Because of the absence of Senator Smith, of Maryland, and other conferees on the District of Columbia appropriation bill, there was no meeting yesterday, and the date for the next conference has not yet been fixed.

It seems certain that there will be no District bill passed during the present session and school officials are beginning to discuss the possibility of a special appropriation before the adjournment to provide for the opening of the Central High School and the Dunbar High School for colored children.

It will take \$20,000 to pay the force of employees required to operate these buildings during the school year and no money is provided for this purpose in the existing bill. This is the most urgent item in the 1916 District bill in dispute.

The half-and-half plan seems to be the one measure upon which the conferees are in hopeless disagreement. Senate members insist they will not recede and House conferees take the same stand.

## STEINMETZ HITS POLITICIANS.

Electrical Wizard Says Incompetent  
Heads Are Named for City Plants.

Baltimore, Md., Aug. 24.—Prof. Charles P. Steinmetz, of Schenectady, N. Y., addressed today's session of the International Association of Municipal Electricians' convention, using as his topic "Electricity."

He took a shot at politicians who, he said, rewarded political favorites in selecting heads for municipal plants. Very often, he said, the plants are not in competent hands, due to changes in management after elections, and as a result the municipality suffers.

## CHARGES WILSON TRIES TO DOMINATE CONGRESS

Representative Denison Tells Women's  
Republican Club Members Presi-  
dent Oversteps Public Trust

Representative Edward E. Denison, of Illinois, in a speech before the Women's Republican Club of the District of Columbia, in the Willard Hotel last night, charged President Wilson with overstepping the trust imposed upon him by the people by attempting to dominate Congress.

Mr. Denison stated that there were bills passed by both branches of Congress by order of the Chief Executive.

"There is danger today," declared Mr. Denison, "because of the tendency of domination from executive influence." Such domination is in violation of the Constitution of the United States. Never before in the history of the country has a President before Congress and practically demanded that a measure be passed.

Mr. Denison predicted the return of the Republican party to power.

Mrs. Mary Logan Tucker presided at the meeting.

## ASKS DISTRICT TO PAY \$250,000 OVER TO U. S.

During his investigation of District finances, Chairman Johnson of the House District Committee has discovered that the city of Washington is indebted to the government \$250,000 and yesterday he called the matter to the attention of Secretary McAdoo for settlement.

The money consists of fines paid into the Federal courts which have been turned over later to the District treasury. Chairman Johnson contends that the money rightfully belongs in the government treasury. Secretary McAdoo has referred the matter to the comptroller of the Treasury for an opinion.

## M'LEAN WILL APPEAL IN INJUNCTION CASE

Will Fight Decision Returning Father's  
Private Letters to American  
Security and Trust Co.

Edward B. McLean, son and only heir of the millionaire publisher and financier, has appealed, through his counsel, to the District Court of Appeals from the decision of Justice Stafford, of the District Supreme Court, dissolving the temporary injunction which restrained Francis T. Homer from delivering to the American Security and Trust Company the letters and private papers of the late John R. McLean.

This injunction was obtained several weeks ago and the motion for dissolution was made by the American Security and Trust Company, executors of the estate of the late millionaire.
